

Guillaume BOUTIN

Web developer

(514) 604-8222

guillaume.boutin@yandex.com

www.guillaumboutin.xyz

TECHNICAL SKILLS

Back-end

Javascript, Nodejs, Expressjs, MySQL, MongoDB, Mochajs

Front-end

Html, Css, JQuery, Sass, Foundation, Bootstrap, React

Development tools

Linux, Git/Github, Grunt

Others

LaTeX, Matlab, Solidworkds, LtSpice, DipTrace, Inkscape

EDUCATION

Web development full-time bootcamp

DecodeMTL (sep 2015 - oct 2015)

Intensive 8 weeks web development bootcamp where we are taught all the basics of back-end/front-end development, as well as some useful developing tools. More informations about the curriculum can be found here:

<http://www.decodemtl.com/web-development-full-time/>

Physics Engineering Bachelor's Degree

Université Laval 2013

Physics Bachelor's Degree

Université-du-Québec-à-Trois-Rivières 2010

PERSONAL PROJECTS

Share your goal online (2015) A single-page app I wrote for Golcast, where you set yourself a goal, display it on an image, and it automatically posts the personalised image on your Facebook wall. All of this is compliant with Facebook policies.

<http://www.goalcast.it>

WORK EXPERIENCE

Sofdesk, Montreal (2016)

- Writing test scripts for the resources of the backend with mocha.js.
- Writing financial wrappers for analysing government incentives.
- Frontend development with React.js.

Optical Engineer

Osela, Lachine (2014)

- Experimenting and optimising the antilayer coating for laser lens.
- Calibrating measurements instruments on the production floor.
- Wrote a Matlab program for calculating Hamming Lengths for random patterns for diffractive gratings.

Student Final Project

Université Laval, Ste-Foy (2013)

Draw with solidworks a stabilizing system for a high power laser used for scanning and engraving.

Summer Internship

Centre d'Optique Photonique et Laser, Ste-Foy (2012)

- Develop a recipe method to make optical fibres coupler for two defined wavelengths in the visible Spectrum.
- Write a program in Matlab for simulating the coupling of the wavelengths.

Private tutor

Service Privé d'Aide aux Études (2013 - present)

Private tutor aiding at home students with issues in some subjects. Aided students with

- Secondary 4 Mathematics
- CEGEP Calculus

ACTIVITIES AND HOBBIES

DIY Amateur Electronician

Home making of guitar effects pedals

- Designing and simulating circuits with LtSpice
- Draw printed circuit board layout with DipTrace
- Etch the printed circuit boards and solder components
- Draw decorative stickers with Inkscape

Guitar

Self teaching (read here "via Youtube") to play the guitar since 2008.
